

## ST. PAUL ELECTRICAL WORKERS HEALTH PLAN ANNOUNCEMENT

**To:** All Participants and Beneficiaries

**From:** Board of Trustees

**Date:** May 1, 2023

**Re:** End of National Emergency for Covid-19

---

The declared National Emergency related to Covid-19 ends on Thursday May 11, 2023. The National Emergency had compelled the Plan to provide 100% coverage for certain Covid-19 services related to diagnostic testing, anti-virals, vaccines and over-the-counter test kits.

The end of the National Emergency will impact the coverage of those Covid-19 related medical benefits under the Plan. While coverage for most benefits continues, how the Plan will pay for those benefits is reflected in the table below:

<b>Covid-19 Benefit</b>	<b>Current Plan Coverage</b>	<b>Plan Coverage as of May 12, 2023</b>
Covid-19 Diagnostic Testing	100% coverage	Coverage continues subject to member cost-share (deductible/coinsurance)
Covid-19 Anti-Virals	100% coverage of dispensing fee.	Dispensing fee is subject to member cost-share
Covid-19 Vaccines	100% coverage	100% coverage as a routine immunization/vaccine
Covid-19 At-Home Test Kits	100% coverage of up to 8 OTC test kits per eligible person per month	No longer covered by the Plan as of May 31, 2023.  Member pays 100% of the cost

If you have any questions, please contact the Plan Administrator, Wilson-McShane Corporation, at 952-851-5949.
